life cycles of plants

Light up Science 2A Unit 1 Lesson 3

天津外国语大学附属滨海外国语学校小学二部 刘亚男

仅世学网
ELECTRE

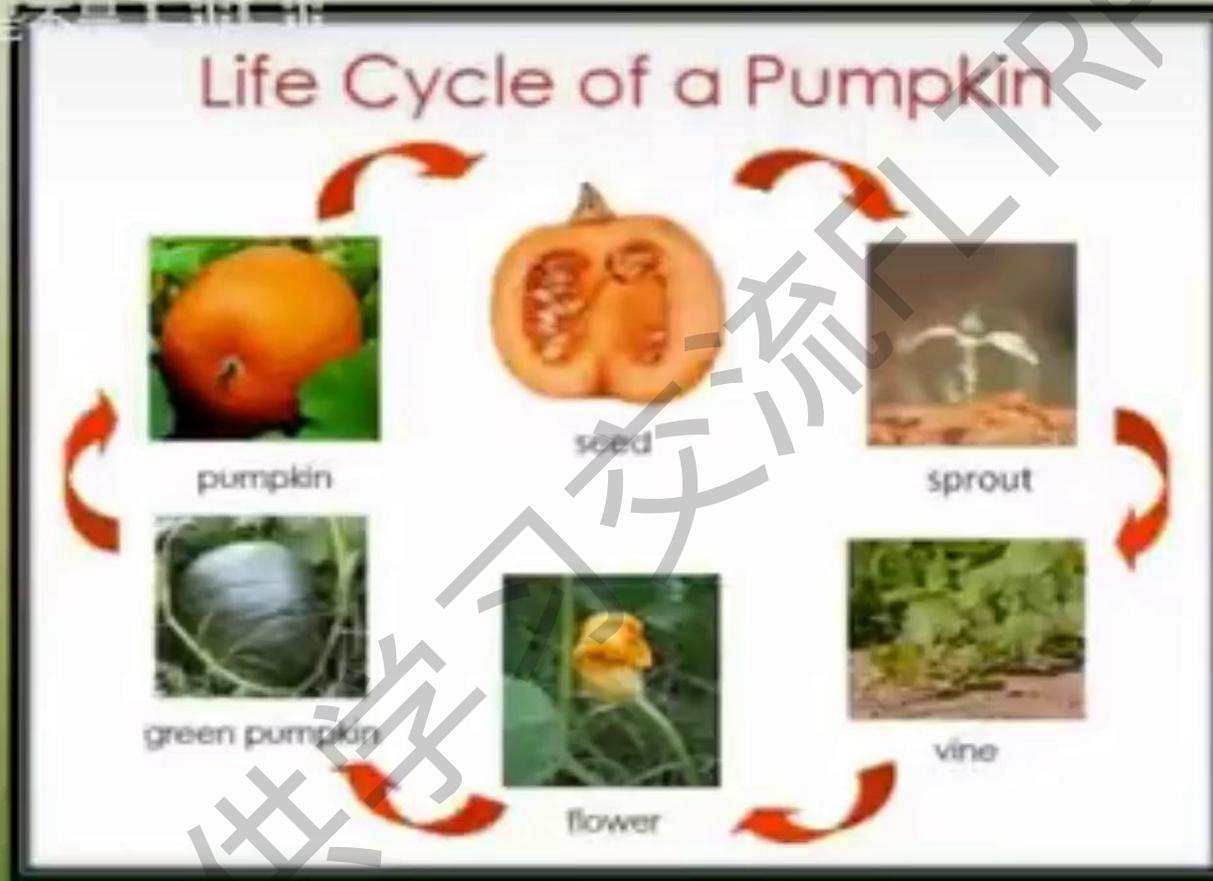

Let's sing a song.

英语歌曲-Life Cycle of a Pumpkin

奇迹迷路了是不想上学的

+ 关注

Do you know how pumpkins grow?
Pumpkins grow, pumpkins grow,
Do you know how pumpkins grow,
in my garden?

00:01 / 02:21

请先

in my garden?

Picture walk

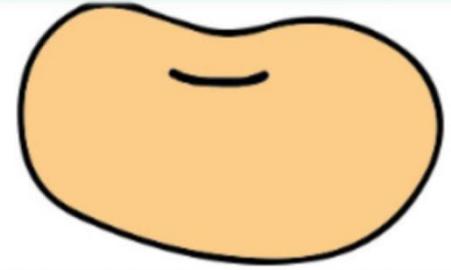

Which parts
of these
vegetables
can we eat?

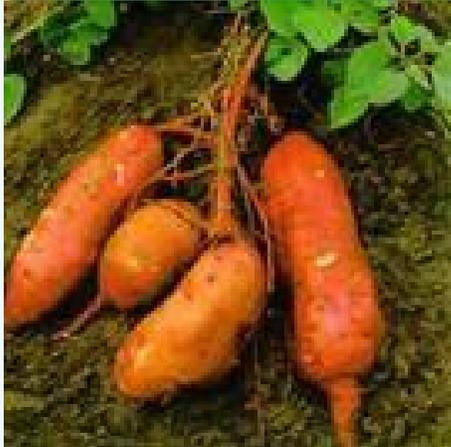

Let's think

Where do the plants come from?

We eat roots:

We eat stem:

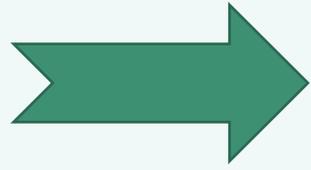

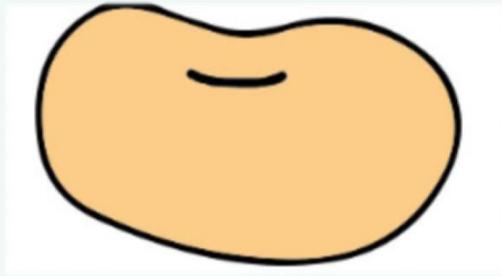

We eat leaves:

We eat fruits:

Let's think

仅供学习 交还ELTRF

Let's show our soybeans.

汉世学习平台ELECTRE

Let's learn the parts of soybeans.

seedling

seed

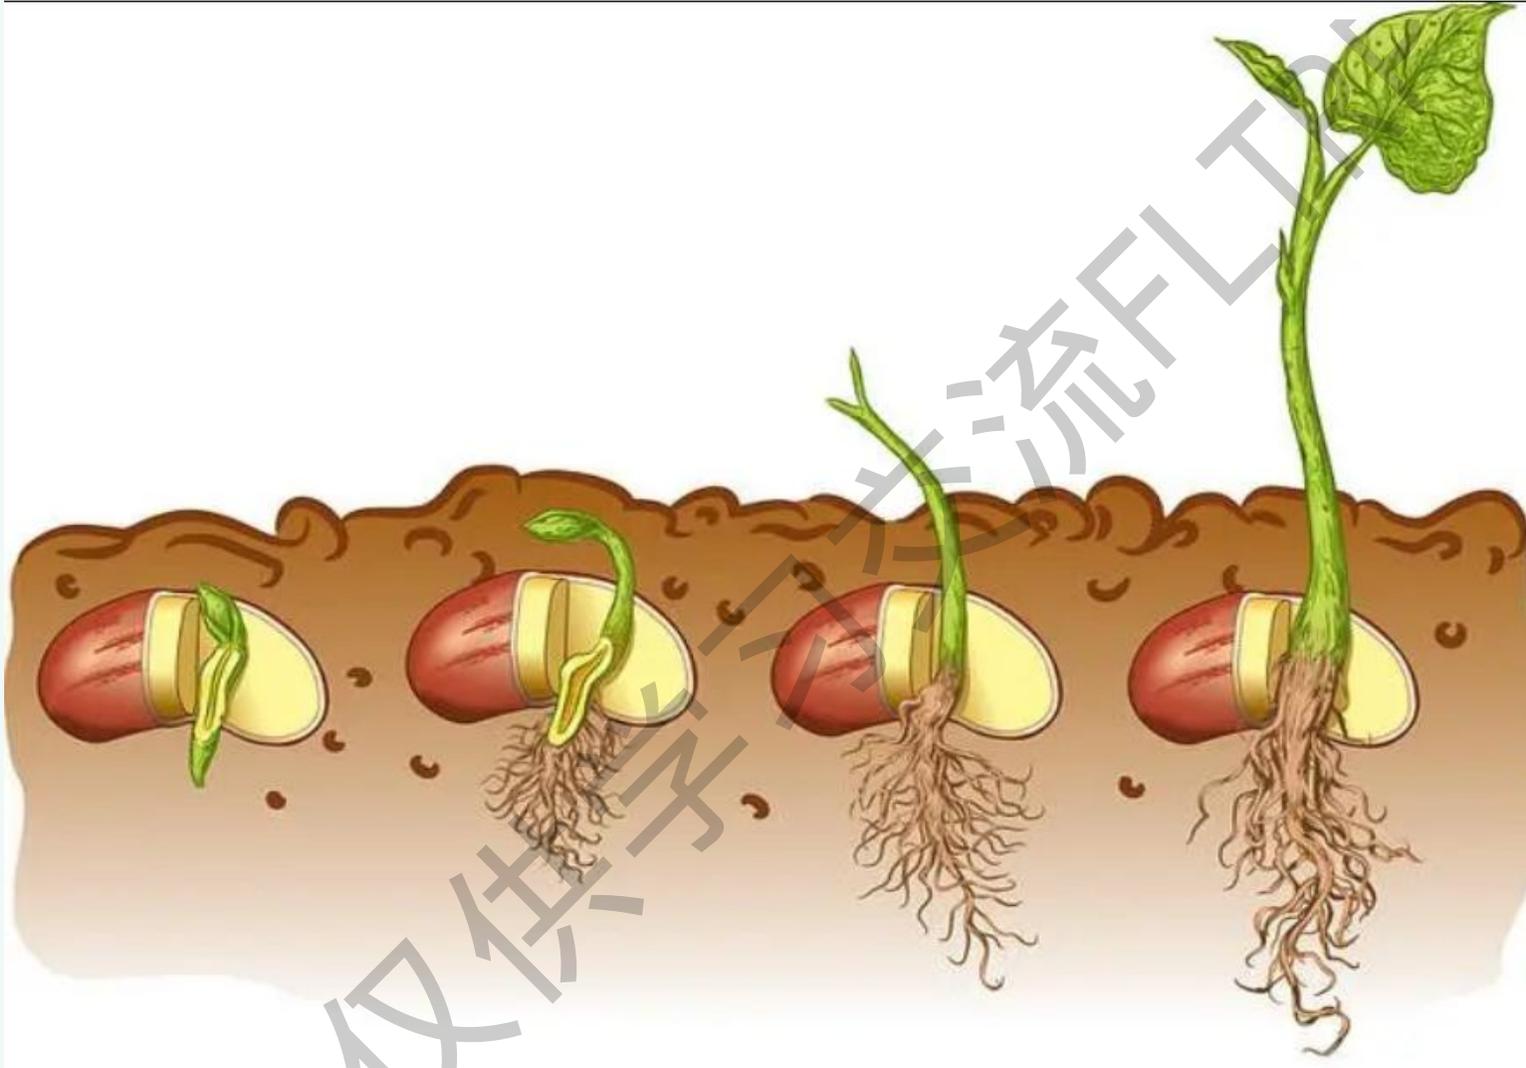

sprout

roots

Let's learn the parts of soybeans.

seed roots sprout seedling

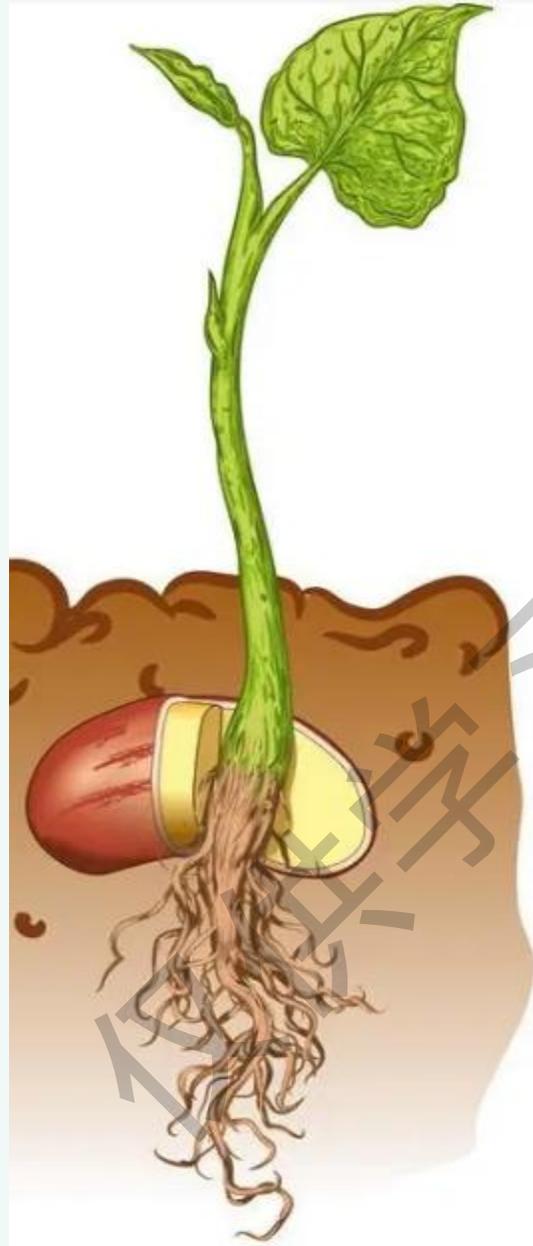

Let's think

water

air

soil

sunshine

What are the essential elements of the soybeans growth?

temperature

enough time

nutrients

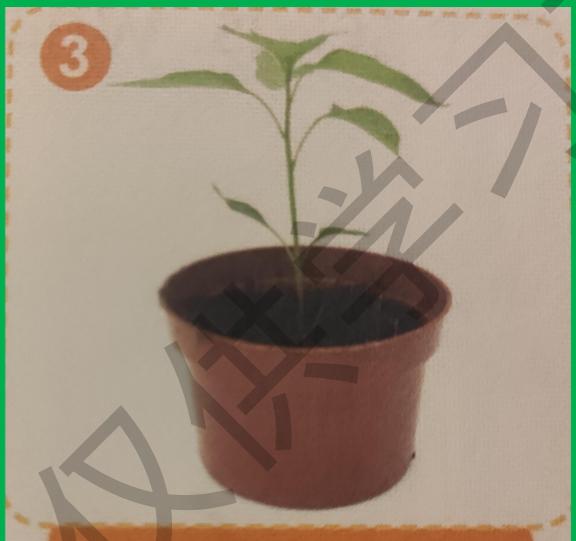

Let's Design an experiment.

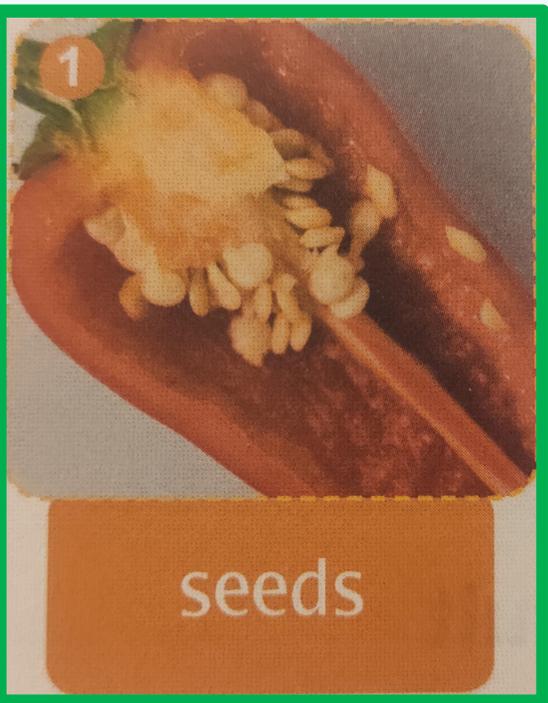

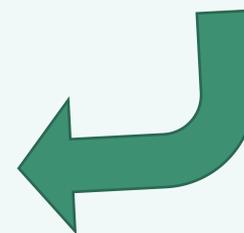

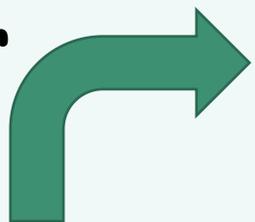

How to design a fair experiment? (For example)

Group B: Is water essential (必不可少的) for the soybeans growth?			
	total amount	get sprout	no sprout
Flowerpot 1 (with water)	10		
Flowerpot 2 (no water)	10		
My idea			

Life cycle of pepper

Life cycle of pepper

Let's act.

I **am** a seed. I **am** small.

I **want to** _____ .

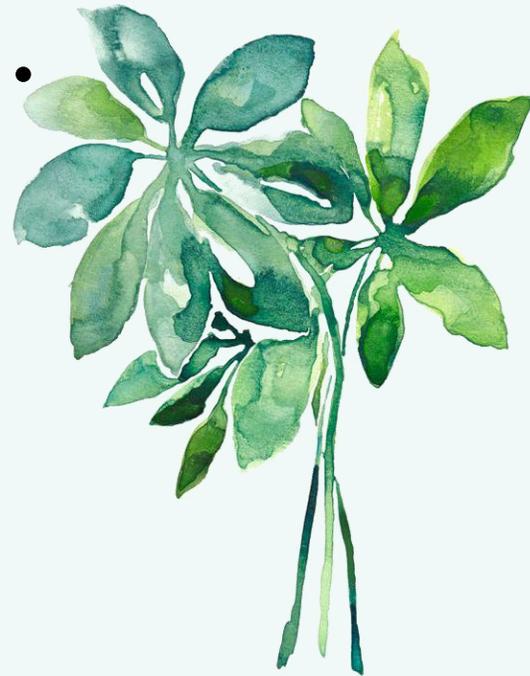

I **need** _____ and _____ .

Look! I **have** _____ and _____ .

I **grow** and **grow**.

Now I **have** _____ and _____ .

Yeah! I **get** fruits!

Let's talk.

Don't
waste
food!

Homework

- 1、 Finish the control experiment of soybeans and talk about the proper conditions for soybeans. **(Essential)**
- 2、 Pinch a plant with colored clay. Make a video to introduce the parts of the plant. **(Optional)**
- 3、 Choose one of your favourite vegetables to plant and finish the record list. **(Optional)**
